Blue Kaboom Welcomes Matt Gallager to Creative Team

CINCINNATI – Blue Kaboom welcomes Matt Gallager to its team as a Web Developer and Host Master. In this position, Gallager will use his IT and web development experience to provide back-end and creative support for Blue Kaboom.

Gallager has worked professionally in IT environments for over eight years and has developed and maintained client websites for over 10 years as a freelancer. He has worked on every aspect of web business, from hosting to advertising.

Gallager joins Blue Kaboom's staff, which includes President Troy Henson and John Kief, Graphic Designer. Blue Kaboom has a wide range of diverse clients including Cincinnati Bell, EnterTRAINment Junction and Kings Island.

"I am excited to work at Blue Kaboom. There's such a great, creative energy here," said Gallager. "I enjoy working on new projects and discussing ideas with clients. This is a chance for me to use and expand my skill set."

Gallager lives in Covington.

Blue Kaboom: Creativity Ignited

Blue Kaboom provides highly customized, intimate and affordable websites and design services for any type of company or organization. Our expertise includes design strategy, consulting and technical support, along with website hosting that focuses on communities. Blue Kaboom focuses on website search engine optimization and offers clients a wide range of professional solutions for the ever-changing World Wide Web. Since 2004, Blue Kaboom has helped clients ensure customers visit their sites, purchase their product, visit their venue, or provide the support they need.
