Blue Kaboom Launches Redesigned Websites for Storage Systems Company and Suhre & Associates

CINCINNATI – Blue Kaboom recently launched two new sites redesigned for two different clients: Storage Systems Company and Suhre & Associates. In the redesign and development process, Blue Kaboom focused on creating modern, user-friendly, visually appealing sites that were search engine optimized for positive results.

Blue Kaboom partnered with O’Keeffe Communications for the content, which focused on keywords and concisely and compellingly telling the clients’ stories.

Suhre & Associates’ website highlights the benefits of Cincinnati DUI attorney Joe Suhre and his firm. Storage Systems Company’s new website features the products and services of the Cincinnati-based industrial storage solutions provider.

“We are very excited about the new design. Our new website will help drive customers to our site and help drive business,” said Bill Judd, Storage Systems Company President. The website does a great job showcasing the many products we sell and everyone at Blue Kaboom was a pleasure to work with.”

View the new sites online at <http://www.storagesystemsco.com/> and <http://www.suhrelaw.com/>.

Troy Henson, Blue Kaboom president said that new projects underway include Web 2.0 interactive and database-driven websites. Blue Kaboom has a wide range of diverse clients including Cincinnati Bell, EnterTRAINment Junction and Kings Island.

“Blue Kaboom did a fantastic job in designing our website,” said Joe Suhre. “It was obvious within a few days of the site’s launch that prospective clients were responding positively to the new site. The design is hitting our target market, and I couldn’t be happier.”

Blue Kaboom: Creativity Ignited.
